Dear Mr. Coursell,

The reverse side explains why I can't reply in more detail. You ibdicate having suffered the influence of a complete fakery, the Hugh McDonald book. It is, from beginning to end, total fraud.

For the most part your scenario does not fit the established fact. This is an enormously complicated subject made more so by the initial determination not to investigate the assassination but to fabricate a coverup. If you order Post Mortem, it opens with the proof. The purpose was to take in concerned people like you and to get the federal agencies off the hook.

In Post Mortem you will find, contrary to your scenario, that it is impossible for Oswald to have fired any shot. Go back to the Carolyn Arnold part of Photographic Whitewash, which you have, read the Bowley affidavit in Post Mortem, and you will see that the Commission suppressed proof that Oswald was and could not have been at the scene of either crime.

Thanks for the time you took. Have a happy holiday and a good year.

Best, HW 12/22/75
